Creative Writing By Calai, Y5

The sea blasted towards the lighthouse at full speed, hitting the lighthouse with all its power. But still it was standing like an egg going through a sandstorm, the sea let the waves crash back. Bubbles rose above the ocean floor and dominated the surface. Sunrise dawns swirling colours fly over the metallic roof of the lighthouse. The sea soon roared back at it, causing an explosion. Water squirts over the building.

The town is partying. Walls shake, the ground rumbles and cheering and laughter spreads across. Beers clanging and windows cracking. The town looks up to the lighthouse, lights shine from the top. Then the party continued, the light stops and the town stops.

Badminton Success

Congratulations to Nihil, Ali and Nayaenesh who represented Leavesden at the weekend in a Badminton Tournament against other local schools. The three Leavesden Representatives won six out of six matches!
